

Application of: Chang et al.  
Serial No.: 10/672,236  
Filed: September 25, 2003  
Supplemental Response in light of Telephone Interview

APPLICANT'S SUMMARY OF INTERVIEW

The courtesy of a telephone interview on June 17, 2008 is hereby acknowledged with appreciation. During the interview, Examiner Vo contacted the undersigned to indicate that claim 1 would be allowable with the incorporation of the subject matter of either claim 7 or claim 10. Also, claims 16 and 19 were indicated as allowable if changes were made that were similar to those made to claim 1 in the last amendment and further if the subject matter of either claim 7 or claim 10 was included in those amended independent claims.

The undersigned further indicated to Examiner Vo that it appeared that the claim to priority to Application Serial No. 09/021,331 was incorrect as there do not appear to be any named inventors in common between that application and the present application. Accordingly, Examiner Vo indicated that she would review the issue before taking any further action.
